

SUDOKU

for kids age 5+

Shapes • Numbers 1–4 • Numbers 1–6

○		△	♥
△	♥		□
	○	♥	
♥		□	○

Vol. 1

How it works

For grown-ups to read aloud

In every row → each shape appears exactly once.

In every column ↓ each shape appears exactly once.

In every thick box each shape appears exactly once.

Tip: look for a row with only 1 empty square!

			
			
			
			

Example: in the red row only the circle is missing.

Shape Sudoku

Draw the missing shape in the empty square.
